Try each potential mouthpiece on your clarinet. Rate it from 1-10 on (in order of importance) intonation, tone quality, security from squeaks, and response. To test intonation, play long tones into the tuner and see if you are in tune (you are in tune if the needle is centered, or close to centered on the tuner).

ed guide - Ridenour Clarinet Products

How to create sound. In order to produce good sound, you should blow facing straight forward, without puffing your cheeks out. Use only the thumb of your right hand to support the instrument, and hold the barrel with your left. How much of the mouthpiece you put in your mouth and the angle at which you hold the clarinet are important points.
